Subject: VendingMiser Installation

David, per your request:

Atlantic Cape Community College has installed VendingMisers on all of our chilled beverage dispensing vending machines throughout our three campus locations. The 19 units have been in operation since 09/99. Their presence has proven to be almost completely seamless to our students and staff, and have had no negative affect on the generation of sales. In fact, our customers are only aware of their existence because they see the dark machines turn on when they enter the room.

Atlantic Cape Community College has been very pleased with the VendingMiser performance.
